

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions, and listings, of claims in the application.**

**Listing of claims:**

1. (Currently Amended) A floatable golf ball for a driving range comprising a core and a cover covering the core, wherein

the cover has a flexural ~~modulus~~ modulus (F) of 80 to 300 Mpa,

the golf ball has a specific gravity of not less than 0.5 and less than 1.0, and a deformation amount (D) of 3.0 to 6.0 mm when applying from an initial load of 98 N to a final load of 1275 N, and

a ratio (F/D) of the flexural ~~modulus~~ modulus of the cover (F) to the deformation amount of the golf ball (D) is within the range of 24 to 31.

2. (Canceled)
